

### Select XLS Thermostat Control Options

All Herschel Select XLS panels are equipped with an in-built SMART-R XLS receiver on the rear of the panel. This allows the XLS panel to pair wirelessly (via RF) with the XLS controller (purchased separately) and receive commands to turn on or off according to the room temperature and program.

There are 3 XLS thermostat controllers to choose from:

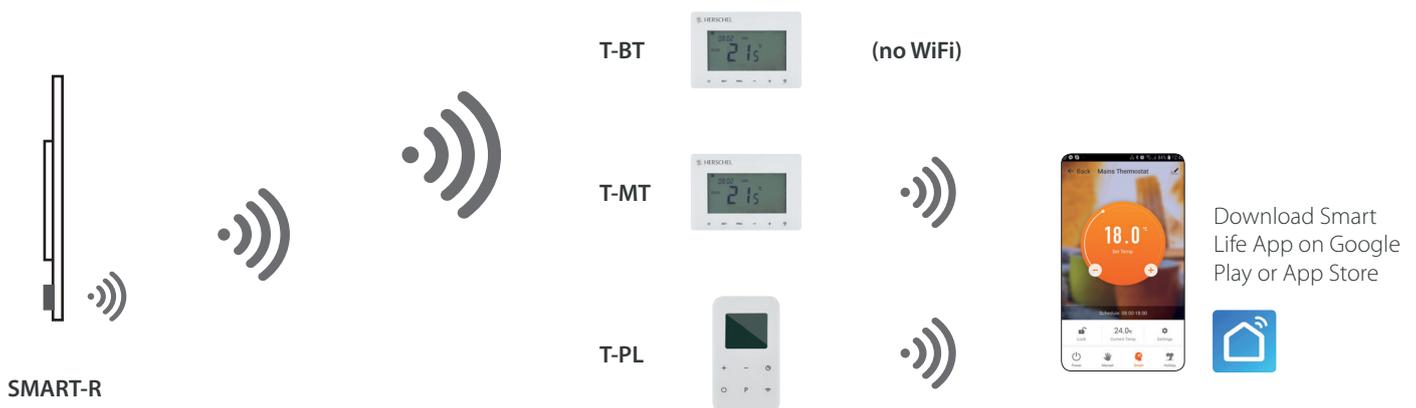

**T-BT** is a battery operated thermostat and requires no wiring. It can be mounted flush onto a wall or freestanding using the supplied stand. Wi-Fi and App control is not possible with **T-BT**.

There are **2 Wi-Fi and App** controller options: **T-MT** and **T-PL**. Wi-Fi and App control is via the 'Smart Life' App and voice control will be possible via Google Assistant and Alexa.

**T-MT** is similar to T-BT but has the added benefit of Wi-Fi and App control. It can be mains-powered and wall mounted (requires recessing into wall) or can be freestanding and powered by a micro USB.

**T-PL** is a simple to use thermostat control which plugs directly into a mains socket. These are perfect for retrofits and portable heating solutions. This option allows Wi-Fi and App control.

Each controller can be paired to and control multiple SMART-R enabled heaters. We advise one controller per room (and maybe more in larger spaces).

#### T-BT (no WiFi)

- Battery powered
- Wireless RF connection to Select XLS heaters
- Open Window technology and Adaptive Start
- 7 day programme schedule or 'Away' mode
- Can control 1 or multiple heaters
- Range up to 30°C
- 24 month warranty
- IPX0
- Wall-mounted or freestanding
- **Non** Wi-Fi and App enabled

#### T-MT

- Mains or Micro USB Powered
- Wireless RF connection to Select XLS heaters
- Wi-fi and App control via the 'Smart Life' App
- Voice control via Google Assistant and Alexa
- Open Window technology and Adaptive Start
- 7 day programme schedule and 'Away' mode
- Can control 1 or multiple heaters
- Range up to 40°C
- 24 month warranty
- IPX0

#### T-PL

- Plugs into a mains socket
- Wireless RF connection to Select XLS heaters
- Manual temperature setting and 24hr timer
- 7 day programme schedule via the App
- Wi-fi and App control via the 'Smart Life' App
- Voice control via Google Assistant and Alexa
- Can control 1 or multiple heaters
- Range up to 37°C
- 24 month warranty
- IPX0

NOTE: These controllers are only compatible with Select XLS heaters. For other heater ranges use Herschel iQ controllers.

All Herschel controls ensure optimum comfort levels, maximum energy efficiency and full compliance with European Energy Saving legislation (Lot 20).
