

The Herschel Select XLS Mirror with Lights is part of our highly popular, high performance Select XLS range. With a mirror finish, LED lighting on the front, a backlight, and integrated touch screen controls, the Select XLS Mirror with Lights is a perfect heating solution for any bathroom. The Select XLS Mirror with Lights can easily be controlled via the touch screen controls as well as through the Smart Life App, offering very convenient controllability with no need to wire additional thermostats. The lighting can be controlled separately to the heater with ease using the touch screen controls. The option to alter the light colour (tones of white) is also available. Both the front and back lights can be dimmed or brightened using the integrated controls and via the Smart Life App.

Available in two sizes (400W or 600W), the Select XLS Mirror with Lights heats up objects in the room rather than the air. This helps to keep walls and furniture in humid areas warm, dry and free of mould. All units are made with Mirrored Safety Glass and manufactured from the highest quality materials under strict quality control and incorporate Herschel's innovative EASY-FIX mounting system. With 5 year warranty. Select XLS is fully compliant with European energy saving regulation (Lot 20) with its built-in thermostat. (Additional thermostats are not required for these models).

Available Models

Model Number	Dimensions	Weight	Power	Heated Area*
XLS400ML-INT	80 x 60 cm	12 kg	400 W	6 - 8 m ²
XLS600ML-INT	70 x 100 cm	16.5 kg	600 W	11 - 13 m ²

* The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

Rear Panel	Sheet steel, with Herschel Easy-Fix mounting system
Surface Temperature	95 - 105°C
Voltage	220 - 240V 50 Hz
Protection Class	IP44
Cable	1.8m
Installation	Wall-mounted only
Certificates	     
Warranty	5 years

Important

The Select XLS Mirror with Lights comes with one EASY-FIX mounting bracket. When installed, the front of the panel will extend a total of 7cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.
